- Logical thinking skills
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Service-focused

Experience

Software Developer - Oct 2023 to Present

Thinqr Solutions Pvt. Ltd, Hyderabad

Duration: 6months, **Job Type:** Contract

Project: Eco automotive

Role: Python Full Stack Developer

Description:

In designed and developed an e-commerce web application for Eco Automotive Bike. The application utilizes Django Rest Framework and Next.js and incorporates a wide range of functionalities, including multi-user authentication, product and accessory management, wish list functionality, cart management, price range filtering, order and delivery management systems, payment gateway integrations, user payment management, as well as email notifications, Micro services integrations, SMTP integrations implementations.

Roles and Responsibility:

- Understand business goals and translate them into technical requirements and project plans.
- Develop and manage project plans and timelines.
- Develop, test, and deploy web applications using the Django framework.
- Troubleshooting API integrations.
- Troubleshoot, debug, and optimize the existing codebase.
- Resolve technical issues promptly.
- Represent the team and communicate with other departments.
- Familiarity with Agile and Jira methodologies.
- Create and maintain RESTful APIs for seamless data integration.

Technologies: Django Rest Framework (DRF), JWT, PostgreSQL, React/Next.js, JavaScript, Bootstrap V5, HTML, CSS, JSON, JQuery, Ajax, AWS, GIT/GitHub, CI/CD, Docker, Jenkins, Kubernetes

Tech Lead - Apr 2022 to Oct 2023

Tech Mahindra, Hyderabad

Duration: 8months, **Job Type:** Full Time

Project: Azure Compute Services - Zen3FP

Role: Full Stack Developer

Client: Microsoft

Description:

Azure Migration plugin is a free tool for migrating the WordPress sites running anywhere to WordPress hosted on Azure App Service created from Azure Marketplace. The tool supports various integrations where your site content can be exported to or imported from for your migration operations.

Once the Plugin is installed and activated, the user will see two options:

1. Export: This option allows the user to export all the content in their WordPress website as a ZIP file to their local machines. The user can select advanced options such as excluding themes, plugins, media files, etc. or protect their ZIP file with a password.
2. Import: This option allows the user to upload their previously exported ZIP file. Once the file is uploaded, the plugin organizes the content in the new website.

Technologies: PHP, MySQL, Fluent UI Web Components, HTML, CSS, JSON, Bootstrap V5, JavaScript, JQuery, Ajax, Azure Web Apps, GIT/GitHub
